

VOLUME TWO

LIST OF ILLUSTRATIONS

NO. OF FIG.	PAGE	NO. OF FIG.	PAGE
1. Sketches of Brick Moulding Machinery	4	27. Setting Out	69
2. Brick Mould used in the Hand Moulding Process	5	28. Drain Pipes and Traps	73
3. Brick Kilns	9	29. Setting Out and Construction of Drains	77
4. Tunnel Kiln	10	30. Drainage Scheme and Details of Intercepting Chamber	79
5. Special Bricks	18	31. Inspection Chamber	81
6. Lime Kiln	19	32. Sanitary Fittings	83
7. Diagram of Lime Hydrating Plant	21	33. Map showing Disposition of Building Stones	93
8. Diagram of Cement Works	23	34. Diagrams showing Typical Structures of Building Stones	95
9. Testing Apparatus for Cement, etc.	33	35. Apparatus for Frost Action Test	100
10. Squint Junctions in English and Flemish Bonds	37	36. Masonry Machines	103
11. Acute and Obtuse Squint Quoins in English and Flemish Bonds	38	37. Stone Dressings to Semicircular-headed Door Openings	106
12. Rebated and Splayed Jambs, Squint and Octagonal Piers	39	38. Stone Dressings to Square-headed Door Openings	108
13, 14. Cavity Walls	41, 43	39. Stone Mouldings at Door Openings	109
15. Circular Work	45	40. Stone Dressings to Window Openings	110
16. Reinforced Brickwork	47	41. Details of Masonry at Window Openings	111
17. Raking Bonds	49	42. Window with Stone Dressings, including Consoles	112
18. Special Bonds	50	43. Cornices	114
19. Brick Arches (Semicircular with Orders, Circular, etc.)	53	44. Stone Steps, Thresholds	116
20. Damp Proofing of Basements	57	45. Stone Open Well Staircase	118
21. Dry Area	58	46. Reinforced Concrete and Marble Staircase	119
22. Stepped Foundations for Sloping Sites	59	47. Mild Steel Roof Truss suitable for 20-ft. Span	123
23. Concrete Floor Construction, Concrete Mixer	61	48. Mild Steel Roof Truss suitable for 30-ft. Span	125
24. Decorated Brickwork	63	49. Mild Steel Roof Truss suitable for 30 to 40-ft. Span	126
25, 26. Fireplaces, Flues, Chimney Breasts and Stacks	66, 67	50. Mild Steel Roof Truss suitable for 40-ft. Span	127
