

What is Law?

Law means a ‘set of rules’ which governs our behaviours and relating in a civilized society. So there is **no need of Law in a uncivilized society.**

Why Should One Know Law?

One should know the law to which he is subject because *ignorance of law is no excuse.*

Contracts as Defined by Eminent Jurists

1. “Every agreement and promise enforceable at law is a contract.” – Pollock
2. “A Contract is an agreement between two or more persons which is intended to be enforceable at law and is contracted by the acceptance by one party of an offer made to him by the other party to do or abstain from doing some act.” – Halsbury
3. “A contract is an agreement creating and defining obligation between the parties” – Salmond

DEFINITIONS (Sec 2)

1. **Offer(i.e. Proposal) [section 2(a)]:-**When one person signifies to another his willingness to do or to abstain from doing anything, with a view to obtaining the assent of that other person either to such act or abstinence, he is said to make a proposal.
2. **Acceptance 2(b):-** When the person to whom the proposal is made, signifies his assent there to , the proposal is said to be accepted.

4. **Promisor and promise 2(c) :-** When the proposal is accepted, the person making the proposal is called as promisor and the person accepting the proposal is called as promisee.
5. **Consideration 2(d):-** When at the desire of the promisor, the promisee or any other person *has done or abstained from doing something* or *does or abstains from doing something* or *promises to do or abstain from doing something*, such act or abstinence or promise is called a consideration for the promise.

ESSENTIALS OF A VALID CONTRACT

“All agreements are contracts, if they are made –

- by free consent of the parties, competent to contract,
- for a lawful consideration and
- with a lawful object, and
- not hereby expressly declared to be void.”

- Sec.10.

ESSENTIALS OF VALID CONTRACT

1. Proper offer and proper acceptance with intention to create legal relationship.

Cases;- A and B agree to go to a movie on coming Sunday. A does not turn in resulting in loss of B's time B cannot claim any damages from B since the agreement to watch a movie is a domestic agreement which does not result in a contract.

- In case of social agreement there is no intention to create legal relationship and there the is no contract (Balfour v. Balfour)
- In case of commercial agreements, the law presume that the parties had the intention to create legal relations.
- [an agreement of a purely domestic or social nature is not a contract]

2. Lawful consideration :- consideration must *not* be *unlawful, immoral or opposed to the public policy.*

3. Capacity:- The parties to a contract must have capacity (legal ability) to make valid contract.

Section 11:- of the Indian contract Act specify that every person is competent to contract provided.

- (i) Is of the age of majority according to the Law which he is subject, and
- (ii) Who is of sound mind and
- (iii) Is not disqualified from contracting by any law to which he is subject.

- Person of unsound mind can enter into a contract during his lucid interval.
- An alien enemy, foreign sovereigns and accredited representative of a foreign state. Insolvents and convicts are not competent to contract.

4. Free consent :- consent of the parties must be genuine consent means agreed upon something in the same sense i.e. there should be consensus – ad – idem. A consent is

said to be free when it is not caused by *coercion, undue influence, fraud, misrepresentation or mistake.*

5. Lawful object

- The object of agreement should be lawful and legal.
- Two persons cannot enter into an agreement to do a criminal act.
- Consideration or object of an agreement is unlawful if it
 - (a) is forbidden by law; or
 - (b) is of such nature that, if permitted, would defeat the provisions of any law; or
 - (c) is fraudulent; or
 - (d) Involves or implies, injury to person or property of another; or
 - (e) Court regards it as immoral, or opposed to public policy.

6. Possibility of performance:

- The terms of the agreement should be capable of performance.
- An agreement to do act, impossible in itself cannot be enforced.

Example : A agrees to B to discover treasure by magic. The agreement is void because the act in itself is impossible to be performed from the very beginning.

7. The terms of the agreements are certain or are capable of being made certain [29]

Example : A agreed to pay Rs.5 lakh to B for ultra-modern decoration of his drawing room. The agreement is void because the meaning of the term “ ultra – modern” is not certain.

8. Not declared Void

- The agreement should be such that it should be capable or being enforced by law.
- Certain agreements have been expressly declared illegal or void by the law.

9. Necessary legal formalities

- A contract *may be oral or in writing.*
- Where a particular type of contract is required by law to be in writing and registered, it must comply with necessary formalities as to writing, registration and attestation.
- If legal formalities are not carried out then the contract is not enforceable by law.

Example : A promise to pay a time. Barred debt must be in writing.

❖ Agreement is a wider term than contract where as all contracts are agreements. All agreements are not contracts.

All Contracts are Agreements, but all Agreements are not Contracts

The various agreements may be classified into two categories:

Agreement not enforceable by law

Agreement enforceable by law

Conclusion:

Thus we see that an agreement may be or may not be enforceable by law, and so **all agreement are not contract**. Only those agreements are contracts, which are enforceable by law, In short.

Contracts = Agreement + Enforceability by Law

Hence, we can conclude “All contracts are agreement, but all agreements are not contracts.”

Distinction between Contract & Agreement

Basis	Contract	Agreement
1. Section :	Sec. 2(h)	Sec. 2(e)
2. Definition :	A contract is an agreement enforceable by law.	Every promise or every set of promises forming consideration for each other is an agreements.
3. Enforceability :	Every contract is enforceable	Every promise is not enforceable.
4. Interrelationship	A contract includes an agreement.	An agreement does not include a contract.

Example: Writing registration or stamping.

Example: An agreement which is required to be stamped will be unenforceable if the same is not stamped at all or is under stamped.

- (e) **Illegal contract:-** It is a contract which the law forbids to be made. All illegal agreements are void but all void agreements or contracts are not necessary illegal. Contract that is immoral or opposed to public policy are illegal in nature.
- ❖ Unlike illegal agreements there is no punishment to the parties to a void agreement.
 - ❖ Illegal agreements are void from the very beginning agreements are void from the very beginning but sometimes valid contracts may subsequently becomes void.

III. *On the basis of execution:-*

- (a) **Executed contract :-** A contract in which both the parties have fulfilled their obligations under the contract.
Example: A contracts to buy a car from B by paying cash, B instantly delivers his car.

There is a promise by A to pay Rs 500 to B. If B is able to spare time to paint A's room. However there is no promise by B to Paint the house. There is only one promise.

Contract of record:

It is either a judgment of a court of a Recognizance.

A Judgment is an obligation imposed by a Court upon one or more persons in favour of another or others. In real sense, it is not a contract, as it is not based upon any agreement between two parties.

Recognizance is a Bond by which a person undertakes before a Court of Magistrate to observe some condition e.g. to appear on summons.

Contracts of record derive their binding force from the authority of the Court.

Contract under Seal:

- (a) A contract under Seal is one which derives its binding force from its form alone.
- (b) It is in writing and signed, sealed and delivered by the parties.
- (c) It is also called a Deed or a Specialty contract.

OFFER

Offer(i.e. Proposal) [section 2(a)]:-When one person signifies to another his willingness to do or to abstain from doing anything, with a view to obtaining the assent of that other person either to such act or abstinence, he is said to make a proposal.

To form an agreement, there must be at least two elements – one offer and the other acceptance. Thus offer is the foundation of any agreement.

“When one person signifies to another his willingness –

- to do or to abstain from doing anything,
- with a view to obtaining the assent of that other to such act or abstinence, he is said to make a proposal.”

The person who makes an offer is called “**Offeror**” or “**Promisor**” and the person to whom the offer is made is called the **Offeree**” or “**Promisee**”.

Example

Mr. A says to Mr. B, “Will you purchase my car for Rs.1,00,000?” In this case, Mr. A is making an offer to Mr. B. Here A is the offeror and B is the offeree.

Essentials elements of an offer:-

- (1) *There must be two parties.*
- (2) *The offer must be communicated to the offeree.*
- (3) *The offer must show the willingness of offeror. **Mere telling the plan is not offer.***
- (4) *The offer must be made with a view to obtaining the assent of the offeree.*
- (5) *A statement made jokingly does not amount to an offer.*
- (6) *An offer may involve a positive act or abstinence by the offeree.*
- (7) *Mere expression of willingness does not constitute an offer.
A tells B’ that he desires to marry by the end of 2008, if does not constitute an offer of marriage by A’ to B’ A further adds will you marry me. Then it become offer.*

Legal Rules as to valid offer:-

1. ***Offer must be communicated to the offeree:*** The offer is completed only when it has been communicated to the offeree. Until the offer is communicated, it cannot be accepted. *Thus, an offer accepted without its knowledge, does not confer any legal rights on the acceptor.*

Example:

A’s nephew has absconded from his home. He sent his servant to trace his missing nephew. When he servant had left, A then announced that anybody who discovered the missing boy, would be given the reward of Rs.500. The servant discovered the missing boy without knowing the reward. When the servant came to know about the reward, he brought an action against A to recover the same. But his action failed. It was held that the

servant was not entitled to the reward because he did not know about the offer when the discovered the missing boy.

[Lalman Shukla v. Gauri Datt (1913) All LJ 489]

2. ***The offer must be certain definite and not vague unambiguous and certain.***

Example:

A offered to sell to B. 'a hundred tons of oil'. The offer is uncertain as there is nothing to show what kind of oil is intended to be sold.

3. ***The offer must be capable of creating legal relation. A social invitation is not create legal relation.***

Example:

A invited B to a dinner and B accepted the invitation. It is a mere social invitation. And A will not be liable if he fails to provide dinner to B.

4. ***Offer may be express and implied***

The offer may be express or implied; An offer may be express as well as implied. An offer which is expressed by words, written or spoken, is called an express offer. The offer which is expressed by conduct, is called an implied offer [Section 9].

5. ***Communication of complete offer***

Example:

A offered to sell his pen to B for Rs.1,000. B replied, "I am ready to pay Rs.950". On A's refusal to sell at this price, B agreed to pay Rs.1,000. held, there was not contract at the acceptance to buy it for Rs.950 was a counter offer, i.e. rejection of the offer of A. Subsequent acceptance to pay Rs.1,000 is a fresh offer from B to which A was not bound go give his acceptance.

6. ***Counter offer – A counter offer amounts to rejection of the original offer***

7. ***Cross offer do not conclude a contract***

8. ***An offer must not thrust the burden of acceptance on the offeree.***

Example:

A made a contract with B and promised that if he was satisfied as a customer he would favorably consider his case for the renewal of the contract. The promise is too vague to create a legal relationship.

- The acceptance cannot be presumed from silence.
- Acceptance is valid only if it is communicated to the offeror.

9. ***Offer must be distinguished from invitation to offer.***

Example:

Menu card of restaurant is an invitation to put an offer.

Example ;

Price – tags attached with the goods displayed in any showroom or supermarket is also an invitation to proposal. If the salesman or the cashier does not accept the price, the or the cashier does not accept the price, the interested buyer cannot compel him to sell, if he wants to buy it, he must make a proposal.

Example:

Job or tender advertisement inviting applications for a job or inviting tenders is an invitation to an offer.

Example:

An advertisement for auction sale is merely an invitation to make an offer and not an offer for sale. Therefore, an advertisement of an auction can be withdrawn without any notice. The persons going to the auction cannot claim for loss of time and expenses if the advertisement for auction is withdrawn.

10. Offeror should have an intention to obtain the consent of the offeree.

11. An answer to a question is not a offer.

Offer	Invitation to offer
<ul style="list-style-type: none"> ➤ Show his readiness to enter into a contract, it is called as an offer ➤ Purpose of entering contract ➤ Results in a contract <p>Example Application filled in by a prospective applicable to the Institution, a student seeking admission in educational Institution.</p>	<ul style="list-style-type: none"> ➤ Person invites offer to make an offer to him. ➤ Purpose of enter offer ➤ Results in offer. <p>Example Issue of prospectus by a Company, an education Institution.</p>

- General offer can be accepted by anyone.
- If offeree fulfill the term and condition which is given in offer then offer is accepted.
- Communication of acceptance is not necessary is case of general offer

Company advertised that a reward of Rs.100 would be given to any person who would suffer from influenza after using the medicine (Smoke balls) made by the company according to the printed directions.

One lady, Mrs, Carlill, purchased and used the medicine according to the printed directions of the company but suffered from influenza, She filed a suit to recover the reward of Rs.100. The court held that there was a contract as she had accepted a general offer by using the medicine in the prescribed manner and as such as entitled to recover the reward from the company.

Carlill v Carbolic Smoke Ball Co. 1893

- V. **Cross offer:-** When two parties exchange identical offers in ignorance at the time of each other's offer the offer's are called cross offer.

Two cross offer does not conclude a contract. Two offer are said to be cross offer if

1. *They are made by the same parties to one another*
2. *Each offer made in ignorance of the offer made by the*
3. *The terms and conditions contained in both the offers' are same.*

Example : A offers by a letter to sell 100 tons of steel at Rs.1,000 per ton. On the same day, B also writes to A offering to buy 100 tons of steel at Rs.1,000 per ton.

When does a contract come into existence: - A contract comes into existence when any of the parties, accept the cross offer made by the other party.

- VI **Counter offer :-** when the offeree give qualified acceptance of the offer subject to modified and variations in the terms of original offer. Counter offer amounts to rejection of the original offer.

Legal effect of counter offer:-

- (1) Rejection of original offer
- (2) The original offer is lapsed
- (3) A counter offer result is a new offer.

In other words an offer made by the offeree in return of the original offer is called as a counter offer.

Example:

A offered to sell his pen to B for Rs.1,000. B replied, " I am ready to pay Rs.950." On A's refusal to sell at this price, B agreed to pay Rs.1,000. Held, there was not contract as the acceptance to buy it for Rs.950 was a counter offer, i.e. rejection of the offer of A. Subsequent acceptance to pay Rs.1,000 is a fresh offer from B to which A was not bound to give his acceptance.

- VII **Standing, open and continuous offer:-** An offer is allowed to *remain open for acceptance over a period of time* is known as standing, open or continually offer. Tender for supply of goods is a kind of standing offer.

Example:

When we ask the newspaper vendor to supply the newspaper daily. In such case, we do not repeat our offer daily and the newspaper vendor supplies the newspaper to us daily. The offers of such types are called Standing Offer.

LAPSE OF AN OFFER

An offer should be accepted before it lapses (i.e. comes to an end). An offer may come to an end in any of the following ways stated in Section 6 of the Indian Contract Act:

1. **By communication of notice of revocation:** An offer may come to an end by communication of notice of revocation by the offeror. It may be noted that an offer can be revoked only before its acceptance is complete for the offeror. In other words, an offeror can revoke his offer at any time before he becomes bound by it. Thus, the communication of revocation of offer should reach the offeree before the acceptance is communicated.
2. **By lapse of time;** Where time is fixed for the acceptance of the offer, and it is not acceptance within the fixed time, the offer comes to an end automatically on the expiry of fixed time. Where no time for acceptance is prescribed, the offer has to be accepted within reasonable time. The offer lapses if it is not accepted within that time. The term 'reasonable time' will depend upon the facts and circumstances of each case.
3. **By failure to accept condition precedent:** Where, the offer requires that some condition must, be fulfilled before the acceptance of the offer, the offer lapses, if it is accepted without fulfilling the condition.
4. **By the death or insanity of the offeror:** Where, the offeror dies or becomes, insane, the offer comes to an end if the fact of his death or insanity comes to the knowledge of the acceptor before he makes his acceptance. But if the offer is accepted in ignorance of the fact of death or insanity of the offeror, the acceptance is valid. This will result in a valid contract, and legal representatives of the deceased offeror shall be bound by the contract. On the death of offeree before acceptance, the offer also comes to an end by operation of law.
5. **By counter – offer by the offeree:** Where, a counter – offer is made by the offeree, and then the original offer automatically comes to an end, as the counter – offer amounts to rejections of the original offer.
6. **By not accepting the offer, according to the prescribed or usual mode:** Where some manner of acceptance is prescribed in the offer, the offeror can revoke the offer if it is not accepted according to the prescribed manner.
7. **By rejection of offer by the offeree:** Where, the offeree rejects the offer, the offer comes to an end. Once the offeree rejects the offer, he cannot revive the offer by subsequently attempting to accept it. The rejection of offer may be express or implied.
8. **By change in law:** Sometimes, there is a change in law which makes the offer illegal or incapable of performance. In such cases also, the offer comes to an end.

ACCEPTANCE

Acceptance 2(b):- When the person to whom the proposal is made, signifies his assent there to, the proposal is said to be accepted.

Legal Rules for the Acceptance

1. Acceptance must be absolute and unqualified

Example: A offers to sell his house to B for Rs. two lakhs. B accepts the offer and promises to pay the price in four installments. This is not the acceptance as the acceptance is with variation in the terms of the offer.

2. Acceptance must be communicated: Mere mental acceptance is no acceptance, But there is no requirement of communication of acceptance of general offer.

Example The manager of Railway Company received a draft agreement relating to the supply of coal. The manager marked the draft with the words “Approved” and put the same in the drawer of his table and forgot all about it. Held, there was no contract between the parties as the acceptance was not communicated. It may however, be pointed out that the Court construed a conduct to parties as railway company was accepting the supplies of coal from time to time.

3. Manner of acceptance

General rule say that it must be as per the manner prescribed by offeror. If no mode is prescribed in which it can be accepted, then it must be in some usual and reasonable manner.

4. If there is deviation in communication of an acceptance of offer, offeror may reject such acceptance by sending notice within reasonable time. If the offeror doesn't send notice or rejection, he accepted acceptance of offer.

Example: A offers B and indicates that the acceptance be given by telegram. B sends his acceptance by ordinary post. It is a valid acceptance unless A insists for acceptance in the prescribed manner.

5. Acceptance of offer must be made by offeror.

Example : A applied for the headmastership of a school. He was selected by the appointing authority but the decision was not communicated to him. However, one of members in his individual capacity informed him about the selection. Subsequently, the appointing authority cancelled its decision. A sued the school for breach of contract. The Court rejected the A's action and held that there was no notice of acceptance. “Information by unauthorized person is as insufficient as overhearing from behind the door”.

6. Acceptance must be communicated to offeror

7. Time limit for acceptance

- If the offer prescribes the time limit, it must be accepted within specified time.
- If the offer does not prescribe the time limit, it must be accepted within reasonable time.

Example : A applied (offered) for shares in a company in early June. The allotment (Acceptance) was made in late November. A refused to take the shares. Held, A was entitled to do so as the reasonable time for acceptance had elapsed.

8. **Acceptance of offer may be** expressly (by words spoken or written); or impliedly (by acceptance of consideration); or by performance of conditions (e.g.in case of a general offer)
9. **Mere silence is not acceptance of the offer**
Example A offers to B to buy his house for Rs.5 lakhs and writes “If I hear no more about it within a week, I shall presume the house is mine for Rs.5 lakhs. “B does not respond. Here, no contract is concluded between A and B.
10. **However, following are the two exceptions to the above rule. It means silence amounts as acceptance of offer.**
- Where offeree agrees that non – refusal by him within specified time shall amount to acceptance of offer.
 - When there is custom or usage of trade which specified that silence shall amount to acceptance.
11. **Acceptance subject to the contract is no acceptance**
 If the acceptance has been given ‘subject to the contract’ or subject to approval by certain persons, it has not effect at all. Such an acceptance will not create binding contract until a formal contract is prepared and signed by all the parties.

General Rules as to Communication of Acceptance

1. **In case of acceptance by post**
 Where the acceptance is given by post, the communication of acceptance is complete as against the proposer when the letter of acceptance is posted. Thus, mere posting of letter of acceptance is sufficient to conclude a contract. However, the letter must be properly addressed and stamped.
2. **Delayed or no delivery of letter**
 Where the letter of acceptance is posted by the acceptor but it never reaches the offeror, or it is delayed in transit, it will not affect the validity of acceptance. The offeror is bound by the acceptance.
3. **Acceptance by telephones telex or fax**
 If the communication of an acceptance is made by telephone, tele-printer, telex, fax machines, etc, it completes when the acceptance is received by the offeror. The contract is concluded as soon as the offeror receives not hears the acceptance.
4. **The place of Contract**
 In case of acceptance by the post, the place where the letter is posted is the place of contract. Where the acceptance is given by instantaneous means of communication (telephone, fax, tele-printer, telex etc.), the contract is made at the place where the acceptance is received,
5. **The time of Contract**

1. **Consideration must move at the desire of the promisor.**
 D constructed a market at the instance of District collector. Occupants of shops promised to pay D a commission on articles sold through their shops. Held, there was no consideration because money was not spent by Plaintiff at the request of the Defendants, but at instance of a third person viz. the Collector and, thus the contract was void.

4. ***Consideration should be real and not illusory. Illusory consideration renders the transaction void*** consideration is not valid if it is.

- (i) Physically impossible (ii) Legally not permissible
- (iii) Uncertain (iv) illusory (***fulfillment of a pre existing obligation***)

5. **Must be legal:-**

Consideration must not be unlawful, immoral or opposed to public policy.

6. ***consideration need not be adequate. A contract is not void merely because of the fact that the consideration is inadequate.*** The law simply requires that contract should be supported by consideration. So long as consideration exists and it is of some value, courts are not required to consider its adequacy.

Example:

A agreed to sell a watch worth Rs.500 for Rs.20, A's consent to the agreement was freely given. The consideration, though inadequate. Will not affect the validity of the contract. However, the inadequacy of the consideration can be considered in order to know whether the consent of the promisor was free or not .

[Section 25 Explanation II]

7. ***The performance of an act what one is legally bound to perform is not consideration for the contract*** mean's something other than the promisor's existing obligation –

A contract not supported by consideration is void .

Ex. Nudo Pacto non oritur action, i.e, an agreement without consideration is void.

FREE CONSENT

According to section 13. Two persons are said to have consented when they agree upon same thing in the same sense.

In English law, this is called '**consensus – ad – idem**'

Effect of absence of consent:

- ⇒ When there is no consent at all, the agreement is **void – ab – initio**.
It is not enforceable at the option of either party

Example 1:-

X have two car one Maruti car and one Honda city car. Y does not know that X has two cars Y offers to buy car at Rs.50,000. Here, there is no identity of mind in respect of the subject matter. Hence there is no consent at all and the agreement is **void – ab – initio**.

Example 2:-

An Illiterate woman signed a gift deed thinking that it was a power of attorney – no consent at all and the agreement was void – ab – initio [**Bala Devi V S. Manumdats**]

Free consent

- ⇒ Consent is said to be free when it is not caused by [**Section 14**]
- (a) coercion [Section 15]
 - (b) Undue influence [Section 16]
 - (c) Fraud [Section 17]
 - (d) Misrepresentation [Section 18]
 - (e) Mistake [Section 20, 21,22]

Effect of absence of Free Consent :- If consent coercion, undue influence, fraud , Misrepresentation the contract is voidable at the option of party whose consent was not free [19, 19A]

Coercion [Section 15]

- (a) Committing any act which is forbidden by the **IPC**
- (b) Threatening to commit any act which is forbidden by the **IPC**.
- (c) Unlawful detaining of any property or
- (d) Threatening to detain any property.

Essential elements of coercion

Above four [a – d]

- (e) coercion need not necessary proceed from party to contract.
- (f) Coercion need not necessary be directed against the other contracting party.
- (g) It is immaterial whether the IPC is or is not in force at the time or at the place where the coercion is employed [**Bay of Bengal caption**]

Effect of threat to file a suit:- A threat to file a suit (**whether civil or court**) does not amount to coercion unless the suit is on false charge. Threat to file a suit on false charge is an act forbidden by the **IPC** and thus will amount to an act of coercion.

Effect of Threat to commit suicide:- Threat to commit suicide amounted to coercion and the release deed was example discussed in class.

Therefore voidable. [Chikham Ammiraju v seshama]

Duress V Coercion

English Law - Duress does not include detaining of property or threat to detain property.
- Duress can be employed only by a party to the contract or his agent.

Effect:- when coercion is employed to obtain the consent of a party the contract is voidable at the option of the party where consent was obtained by coercion.

A threat to strike by employees in support of their demands is not regarded as coercion. This is because the threat to strike is not an offence under the I.P.C. it is a right given under the Industrial Disputes Act.

Detaining property under mortgage: Detention of property by a mortgage until the payment of loan does not amount to coercion.

Undue influence [Section 16]

Meaning of undue influence :- dominating the will of the other person to obtain an unfair advantages over the others.

- (a) where the relation subsisting between the parties must be such that one party is in **position to dominate the will** of the other.
- (b) The dominant party **use** his position.
- (c) Obtain an **unfair advantage** over the other .

Presumption of domination of will:-

Circumstances	Examples
Where he holds a real or apparent authority over the other	Master and servant, parent and child, Income Tax officer and assesses principal and a Temporary Teacher.
Where he stands in a Trust fiduciary (benefit) relation to the other	Trustee and beneficiary spiritual Guru and his disciples, solicitors and clients. Guardian and wards
Mental Capacity of a person is temporarily or permanent effected by reason of age, illness or mental or bodily distress	Relationship between medical attendant and ward.

Example :-

A Poor Hindu widow agreed to pay interest at 100% P. a because she need the money to established her right of maintenance. It was held that the lender was in position to dominate the will of widow.

No. Presumption of Domination of will:-

- Landlord and Tenant
- Creditor and Debtor
- Husband and wife (**other than Pardanashin**)
- Principal and Agent

Effect of undue Influence:-[Section 19A]

When consent to an agreement is caused by undue influence, the contract is voidable at the option of the party whose consent was so caused.

Burden of Proof:- A contract is presumed to be induced by undue influence if the following two condition:-

- A party has the position to dominate the will of the others
- The transaction is unconscionable (unreasonable)

In such a case dominant party is under the burden to prove the undue influence was not employed.

[Unconscionable transactions:- if transaction appears to unreasonable the dominant party to prove that there is no undue influence.]

- **Any other transaction:-** weaker party to prove the influence was employed]

Where some transaction is entered into in the ordinary course of business, but due to certain contingencies, one party is able to make the other party agree to certain terms and conditions then it is not undue influence.

Example :

A applies to a banker for a loan at a time when there is stringency in the money market. The banker declines to make the loan except at an unusually high rate of interest. A accepts the loan on these terms. This is a transaction in the ordinary course of business, and the contract is not induced by undue influence.

Example :

A spiritual guru induced his chela to donate all his property to the ashram and said that in return of it, he will certainly get salvation. The chela did the same. Held, that this is a case, of undue influence so it becomes void.

Contract with Pardanashin woman;-

Induced by undue influence

Burden of Proof – Full disclosure is made to pardanashin women

Pardanashin Women - Understand the contract

- Receipt of competent independent advice .

Rebutting presumption:-

- Dominant party – full disclosure
- Price was adequate
- Receipt of competent independent advice before entering into contract – weaker party.

Undue influence Vs Coercion

Similarities: - Voidable at the option of aggrieved party:-

Coercion (15)	Undue Influence (16)
Meaning – using or threat to use physical force - obtain the consent of party (intention) - Punishment under IPC - Parties – Stranger - Relationship – Immaterial - Voidable at the option of aggrieved party - Benefit - Back	- Involves use of moral force (mental pressure) - Obtain an unfair advantage (intention) - Not criminally liable - Between the parties to the contract - One party dominate the other party - Voidable or court set aside - Benefit – order of court – Back

Ex.: Where the representation was true at the time of when it was made but becomes untrue before the contract is entered into and this fact is known to the party who made the representation. If must be corrected. If it is not so corrected it will amount to be fraud.

When the silence amount to fraud:-

(a) **General rule:-** Mere (only) Silence as to facts likely to affect the willingness of a person to enter into a contract is not fraud.

EXCEPTION

where the circumstances of the case are such that regarding being had to them. It is duty of the person keeping silence to speak. Such duty arises in the following two cases.

- When the party after become aware of fraud takes a benefit.
- When the parties can't be restored to their original position.
- Where interests of third parties intervene before the contract is avoided.

Misrepresentation (section 18)

Fraud (17)	Misrepresentation (18)
<p>Meaning :- wrongful representation is made Willfully to deceive the party.</p> <p style="text-align: center;"><u>Knowledge of falsehood.</u></p> <ul style="list-style-type: none"> - The person making the wrong statement does not believe it to be true. - Right to claim damage <p style="text-align: center;"><u>Means of discovering of truth</u></p> <ul style="list-style-type: none"> - In case of fraud the contract is voidable even though the aggrieved party had the means of discovering the truth with ordinary diligence. <p>Exception :- Silence</p>	<p>Meaning - innocently without any intention to Deceive the other party.</p> <ul style="list-style-type: none"> - The person making the wrong statement believes it to be true. - Can't claim damage - In case of misrepresentation the contract is not voidable if the aggrieved party had the means of discovering the truth with ordinary diligence....

She pledged them with a broker who took them in good faith. Held that there was no contract between jeweler and woman and even an innocent buyer or a broker did not get a good title. Broker must return necklaces to jeweler. Jeweler intended to deal not with her but with quite a different person, i.e., wife of a Baron.

2. as the nature of the contract

Ex.:- illiterate man sign Bill of exchanges by means of false, representation that it was a mere guarantee. It was held that he was not liable for bill of exchange because never intended to sign the bill of exchange

EVERY AGREEMENT OF WHICH THE OBJECT OR CONSIDERATION IS UNLAWFUL IS VOID [SEC 23]

Every debtor who owes several debts to a creditor has a right to instruct his creditor to which particular debt, the payment is to be appropriated or adjusted. Example : A owes B three distinct debts of Rs.2,000, 3,000 and 5,000. A sends Rs.5,000 and instructs B that the payment should be appropriated against the third debt. He is bound to appropriate the payment against the third debt only.

- ⇒ This kind of contract involves exercise of skill and labour by one party on some goods or materials supplied by other party or supplied by party who exercise skill and labour for price. It is immaterial who supply material. Alternatively, it can be said that in this kind of contract, main purpose is to exercise work and skill. Supply of own goods is only subsidiary. Intension of parties is to transfer goods only after exercise of some skill and labour.
- ⇒ As it is not falling within categories of contract for Sale no sales tax is payable.

Example:

- (1) A dentist agreed to supply a set of artificial teeth to a patient. The material was wholly found by the dentist. Held, it was a contract for the sale of goods.
- (2) An artist was asked to paint a portrait. The material was supplied by the party and not by the painter. It was held to be a contract for work and labour and not of sale.

CLASSIFICATION OF GOODS

Types of Goods

The goods may be classified into following categories:

Existing goods

- Existing goods are the goods, which are owned and possessed by the seller at the time of sale. Existing goods may be of three types;

(a) Specific Goods:

- The goods, which are identified and agreed upon by the parties at the time of contract of sale.
- It should be noted that the goods must be both identified and agreed upon.

(b) Unascertained Goods:

- These are the goods, are not identified and agreed upon at the time of the contract of sale.

- These goods are merely described by the parties at the time of contract of sale.

(c) Ascertained Goods:

- There are the goods, which are identified after the formation of contract of sale. When the un-ascertained goods are identified and agreed upon by the parties, the goods are known as ascertained goods.

Future Goods

- ⇒ Future goods are those goods, which do not exist at the time of the contract of sale.
- ⇒ These goods are to be manufactured or acquired by the seller after the making of the contract of sale.
- ⇒ Future goods cannot be sold, but there can only be an agreement to sell.

Example:

A, a manufacturer agrees to sell 5 tables and 50 chairs to B at Rs.10,000. B agrees to purchase it. However, tables and chairs are yet to be manufactured by A.

Contingent goods

- ⇒ It is a kind of future goods.
- ⇒ It is goods, the acquisition of which is contingent upon the happening or non –happening of an uncertain event.

Example:

A agrees to sell the goods loaded on the ship “Titanic”, which is coming from London to Bombay. The ship may or may not arrive. So, these goods will be called as contingent goods.

Basis	Futures Goods	Contingent Goods
1. Meaning	Goods that are yet to be manufactured produced or acquired by the Seller after making contract of sale.	Goods, the acquisition of which by the Seller depends upon a contingency, which may or may not happen.
2. Element of uncertainty	Acquisition of Future Goods does not depend upon and uncertainty.	The procurement of Contingent Goods is dependent upon an uncertain event.
3. Scope	Future Goods do not include contingent Goods because of the element of certainty.	They are wider in scope, it includes future Goods.
4. Effect of Contract	Where by a contract of Sale, the Seller purports to effect a present sale of future Goods, the contract operates as an “agreement to sell” the Goods[Sec.6(3)]	There may be a “Contract for Sale” of Goods, the acquisition of which by the Seller depends upon a contingency which may or may not happen [Sec.6 (2)]
5. Example	B agrees to buy the entire crop of wheat that would yield in S’s farm, at the rate of Rs.1000 per quintal.	A agrees to sell to B a certain painting only if C, its present owner, sells it to him. The sale is contingent upon the sale by C.

Price of Goods – Sec 9 – 10

Price means the money consideration for a sale of a Goods 2(10)

The following are the modes of determining price: [Sec. 9]

- ⇒ Price is specified under the contract. It is the most common method of determining the price. Here, parties decide the price in advance.
- ⇒ Price may be determined as per the method specified in contract.
Example :
Delivery of rice on 1st December 2008 at the rate prevailing on that day.
- ⇒ Price may be determined in accordance to custom and usage of trade. This method is applicable if parties regularly trade.
- ⇒ Where the price is not fixed as above, the buyer shall pay the seller a *reasonable price*.
‘What is a reasonable price is a question of fact and circumstances.

Fixation of price by third party. (Sec. 10)

If it is so, contract shall specify name of third party.

If third party fails to specify, contract is void but if goods are delivered to buyer and used by him, he is required to pay reasonable price.

If the third party is prevented from fixing price, defaulting party is liable for the damages.

Consequences of Destruction of Specific Goods – Sec 7 – 8
--

The consequences of destruction of specific goods can be discussed under the following three heads:

- ⇒ *If goods perish before making the contract*
 - Contract is void – ab – initio, due to mistake as to existence of subject matter.
 - It is to be noted that if the seller has knowledge about the destruction of goods, even then the enters into the contract of sale with buyer, then seller is bound to compensate to the buyer.
- ⇒ *Where a part of the goods is perished before making contract*
 - If the goods was divisible, then the contract can be enforced party and if the goods was indivisible, then the contract becomes void – ab – initio.

Example:

A contracted to sell one wagon containing 700 bags of groundnut to B. Unknown to A, 109 bags had been stolen at the time of sale, Therefore, A made a delivery of 591 bags. Held, the sale was void.

If goods perish after the “Agreement to sell; but before’ Sale [Sec. 8]

The contract is void if subsequently the goods have perished, and there is no fault on the part of the buyer or seller in perishing the goods.

Example:

A horse was delivered upon trial for 8 days. However, the horse died within 8 days, without the fault of buyer or seller. Held, the seller must bear the loss, as the contract was void.

However, parties to the contract may provide otherwise also.

Section 7 and 8 are applicable only in case of specific goods.

Therefore, if unascertained goods are destroyed either before or after making the agreement, the contract shall not become void. Thus, in an agreement to sell unascertained goods, even if the entire stock of goods is destroyed, the contract that not become void and the seller will have to perform his promise.

Example

‘A’ agreed to sell to ‘B’ 100 bags of wheat from his stock of 1,000 bags in his go down. The entire stock was destroyed by fire. ‘A’ is bound to deliver 100 bags of wheat or else he will be liable for damages.

- ⇒ Stipulation as to time of payment is not deemed to be essence of contract.
- ⇒ Stipulation as to time of delivery is deemed to be essence of contract.

CONDITIONS AND WARRANTIES

In such a case lay off compensation will not be payable if the employee refuses to accept the alternate employment.

Important Points

Under Difference between lock-out and lay-off.

lock-out the employer refuses to give employment because of closing of a place of employment or suspension of work. Under lay-off the employer refuses to give employment because of shortage of coal, power or raw material or the accumulation of stocks or the breakdown of machinery or natural calamity or for any other reason to give employment.

- (2) Lock-out is resorted to by the employer to coerce or pressurize the workmen to accept his demands; lay-off is for trade reason beyond the control of the employer.
- (3) Lock-out is due to an industrial dispute and continues during the period of dispute; lay-off is not concerned with a dispute with the workmen.

Difference between lock-out and closure. Lock-out and closure of a business are often confused. This is because cessation of work is common to both.

Closure is a fundamental right and if it is not a lock-out, the workers cannot grudge [*J.K. Hosiery Factory v. Labour Appellate Tribunal*, A.I.R. (1956) All. 498]. The State cannot compel an employer to carry on his business because several employees may be thrown out of employment if it is closed. The grounds for closure of a business may be actual loss or apprehended loss. It may also be disinclination to run the risk of running the business [*Indian Metal & Metallurgical Corpn. V. Industrial Tribunal, Madras*, 3 F. J.R. 420 High Court, Madras].

The points of difference between a lock-out and closure are as follows:

- (1) In the case of lock-out it is only the place of business which is closed (and not the business itself), while in the case of closure of a business not only the place of business but the business itself is closed [*Express Newspapers (Pvt.) Ltd. V. Their Workmen*, A.I.R. (1963) S.C. 569]. The closure of a business indicates the final and irrevocable termination of the business itself. Lock-out, on the other hand, indicates the closure of the place of business or the place of employment and not the closure of the business itself.
- (2) Lock-out is a weapon of coercion in the hands of employer; closure is generally for trade reasons.
- (3) In closure there is severance of employment relationship whereas in lock-out there is no severance but only suspension of such relationship.
- (4) A lock-out is caused by the existence or apprehension of an industrial dispute whereas a closure need not be in consequence of an industrial dispute.

National Tribunal [Sec. 2 (n)]. It means—
any railway a National Industrial Tribunal constituted under Sec. 7-B.

Public utility service [Sec.2 (n)]. **It means—**

- (i) Any railway service or any transport service for the carriage of passengers or goods by air;
- (ii) Any service in , or in connection with the working of , any major port or dock;
- (iii) Any section of an industrial establishment, on the working of which the safety of the establishment or the workmen employed therein depends;
- (iv) Any postal, telegraph, or telephone service;

- (v) Any industry which supplies power, light or water to the public;
- (vi) Any system of public conservancy or sanitation;
- (vii) Any industry specified in the First Schedule.

The appropriate Government may, if satisfied that public emergency or interest so requires, by notification in the Official gazette, declare any industry specified in the First Schedule to be public utility service for the purposes of the Industrial disputes Act for such period as may be specified in the notification. The period so specified shall not, in the first instance, exceed 6 month. But it may, by a like notification, be extended from time to time by any period not exceeding 6 month at any time if in the opinion of the appropriate government, public emergency or public interest requires such extension. The first schedule is reproduced below.

Difference between ‘retrenchment’ and ‘closure’. The important points of difference between ‘retrenchment’ and ‘closure’ may be enumerated as follows;

- (1) Retrenchment is the termination by the employer of the service of the workman for any reason whatsoever, otherwise than as punishment inflicted by way of disciplinary action. It affects only some of the workmen. Closure, on the other hand, means closing down of the business of trade reasons and it affects all the workmen.
- (2) In case of retrenchment the services of workmen are terminated on account of surplus labour; while in case of closure it is on account of total closure of work by an employer.
- (3) In retrenchment the trade or business remains uninterrupted as it continues; while in closure the business itself is discontinued.
- (4) The compensation payable to a workman on retrenchment either on account of surplus labour or closure, shall be equivalent to 15 days’ average pay for every completed year of continuous service or any part thereof in excess of 6 months. Retrenchment as a result of bona fide closure of business does not entail any compensation beyond average pay for 3 months.

Difference between lock-out and retrenchment.

- (1) Lock-out is temporary; retrenchment is permanent. Retrenchment results in complete severance of industrial relationship between an employer and an employee while lock-out keeps this relationship alive even during the cessation of work. The former results in severance of relationship between the employer and employee while the latter amounts to only suspension of the relationship.
- (2) Lock-out is with a motive to coerce the workmen to accept the demands of the employer retrenchment is resorted to dispense with surplus labour.
- (3) Lock-out is due to and during an industrial dispute; there is no such dispute in case of retrenchment.

3.3 WORKMEN'S COMPENSATION ACT 1923

Introduction

This Act provides social security to workmen. Under this Act, a workman who dies or suffers disablement, partial or total, due to an accident is entitled to get compensation from his employer.

Applicability of the Act

A workman covered under ESI Act, 1948 is not entitled to get compensation under Workmen's Compensation Act, 1923. Thus, Act is applicable to those factories, mines, transport establishment, construction works, etc. Which are not covered under ESI Act, 1948.

Meaning of Workman

Workman means the following:

- (i) Railway servant"
- (ii) Crew of ship;
- (iii) Crew of aircraft;
- (iv) Driver, cleaner, helper or mechanic of motor vehicles;
- (v) Workman recruited abroad;
- (vi) Person employed in activities like manufacturing process, explosive, mines, shop loading/ unloading, construction, electricity generation and distribution, drivers, horticulture, circus.
- (vii) Persons employed in cultivation of land, fishing, rearing of livestock. If the number of persons employed there is more than 25.

Every employee including those employed through contractor who is engaged for the purpose of employer's business is eligible for workman's compensation. However, casuals employees and employees engaged in clerical capacity neither are nor covered.

In case of contract labour, the principle employer is liable to pay compensation in the same manner, as he is liable for his departmental labour, However, he is entitled to be indemnified by the contractor for such compensation. [Managing Director, Orissa State Warehousing Corporation V. Smt, Geetarani]

Employer's Liability for Compensation

An employer is liable to pay compensation if personal injury is caused to a workman ny accident arising out of and in the course of his employment.

However, an employer is not liable in the following.

- (1) Injury which results in total or partial disablement of workman up to 3 days;
- (2) Injury caused by an accident directly attributable to the following:
 - (a) Workman working under the influence of drinks or drugs;
 - (b) Willful disobedience of express order of safety;
 - (c) Willful removal of safety guards or devices.

However in a such cases, if the workman does or suffers permanent total disablement the employer will be liable.

Further, an employer is liable to a workman, if a workman contract any specified occupational disease while he is in the service of the employer for at least 6 months.

If may be noted that compensation is payable even when there is no fault of the employer; except the aforesaid cases where the compensation is not payable./ The compensation is payable even if it is found that the employee did not take proper precaution or he was careless or negligible in the performance of his work.

Amount of compensation payable

Compensation is payable to workman in case of partial or total disablement. It is payable to dependants of workman in case of death.

It may be noted that compensation is an amount equal to 50% of monthly wages deceased workman multiplied by a factor depending on the age of the workman (more than age, lower the compensation), subject to a minimum compensation of Rs. 80,000/-. In addition to this funeral expenses of Rs. 2,500/- are also paid.

In case of permanent of total disablement, compensation payable is an amount equal to 60% of monthly wages of disabled workman multiplied by a factor depending on the age of the workman (more the age, lower the compensation), subject to a minimum compensation of Rs. 90,000/-

In case of permanent partial disablement, compensation is paid based on percentage of loss of earning capacity.

Accident arising out of and in the course of employment.

Accident arising out of employment: An accident arising out of employment implies a proximate and direct connection between the accidental injury and the employment. In this case, the compensation will be payable if the accident has occurred at the place where the workman was performing his duties.

Accident in the course of employment: An accident in the course of employment implies a casual connection between the accidental injury and the employment. In this case, for the payment of compensation it is not necessary that the accident occurred at the place where the workman was performing his duties, Further, it is also not necessary that the workman must be actually working at the time of his death.

It is well established that there must be some casual connection between the death of the worker and his employment. If the workman dies, as a natural result of the disease from which he was suffering then it will be considered that he has died of that disease as a wear and tear of his employment and hence no liability would be fixed upon the employer. However, if the employment is contributory cause or has accelerated the death, or if the reason of the death is not only the disease but also the disease coupled with the employment then it could be said that the death arose in the course of the employment and the employer would be liable.

Employer's liability when contractor is engaged

Section 12 makes the employer liable for compensation to such workmen hired by the contractor under following circumstances:

- (a) The contractor is engaged to do a work which is part of the trade or business of the employer(called principal);
- (b) The workmen were engaged in the course of or for the purpose of his trade or business; and
- (c) The accident occurred in or about the premises on which the principal employer has undertaken or undertakes to execute the work concerned.

The amount of compensation shall be calculated with reference to the wages of the workman under the employer by whom he is immediately employed.

Industrial or other establishment [Sec. 2 (ii)]. It means any—

- (a) Tramway service, or motor transport service engaged in carrying passengers or goods or both by road for hire or reward;
 - (aa) air transport service other than such service belonging to or exclusively employed in the military, naval or air force of the Union or the Civil Aviation Department of the Government of India;

- (g) establishment in which any work relating to the construction, development or maintenance of buildings, roads, bridges or canals, or relating to operations connected with navigation, irrigation or supply of water or relating to the transmission or distribution of electricity or any other form of power is being carried on;

Wages [Sec. 2 (vi)].

“Wages” means all remuneration (whether by way of salary, allowances or otherwise) expressed in terms of money or capable of being so expressed which would, if the terms of employment, express or implied, were fulfilled, be payable to a person employed in respect of his employment or of work done in such employment. Simply stated, ‘wages’ means all remuneration due to any

worker or employee if the terms of contract of employment are fulfilled.

The definition of expression ‘wages’ is made sufficiently wide by including within the expression:

- (a) any remuneration payable under any award or settlement between the parties or order of a Court;
- (b) any remuneration to which the person employed is entitled in respect of overtime work or holidays or any leave period;
- (c) any additional remuneration payable under the terms of employment (whether called a bonus or by any other name);
- (d) any sum which by reason of the termination of employment of the person employed is payable under any law, contract or instrument which provides for the payment of such sum, whether with or without deductions, but does not provide for the time within which the payment is to be made;
- (e) any sum to which the person employed is entitled under any scheme framed under any law for the time being in force.

The expression ‘wages’ does not include:

- (1) any bonus (whether under a scheme of profit-sharing or otherwise) which does not form part of the remuneration payable under the terms of employment or which is not payable under any award or settlement between the parties or order of a Court;
- (2) the value of any house accommodation, or of the supply of light, water, medical attendance or other amenity or of any service excluded from the computation of wages by a general or special order of the State Government;
- (3) any contribution paid by the employer to any pension or provident fund, and the interest which may have accrued thereon;
- (4) any travelling allowance or the value of any travelling concession;
- (5) any sum paid to the employed person to defray special expenses entailed on him by the nature of his employment; and
- (6) any gratuity payable on the termination of employment in cases other than those specified in Clause (d) above.

The definition of the expression ‘wages’ comprises 3 parts:

The first part declares that ‘wages’ means all remunerations which would, if the terms of the contract of employment, express or implied, were fulfilled, be payable to a person employed, in respect of his employment. This clause presents no difficulty whatsoever for it declares in an unambiguous language that an employee is entitled to receive wages in accordance with the terms of his contract.

The second part says that the expression ‘wages’ shall include any bonus or other remuneration of the nature aforesaid which would be so payable, i.e., payable in accordance with the terms of the contract.

The third part declares that the expression ‘wages’ shall include ‘any sum’ payable to such person by reason of the termination of his employment. The language of this clause is wide enough to embrace not only a sum payable to an employee under the terms of a contract but also a sum payable to him under the provisions of any law.

Fixation of wage-periods (Sec. 4)

Every person responsible for the payment of wages under Sec. 3 shall fix periods, known as wage-periods, in respect of which such wages shall be payable [Sec. 4 (1)]. A wage-period shall not exceed one month [Sec. 4 (2)].

3.5 MINIMUM WAGES ACT, 1948

The object of the Act is to secure the welfare of the workers in a competitive market by fixing the minimum rates of wages in certain employments. The Legislature undoubtedly intended to apply the Act to those industries or localities in which, by reason of causes such as unorganized labour or absence of machinery for regulation of wages, wages paid to workers were, in the light of the general level of wages and subsistence level, inadequate [*Bhikusa Yamasa Kshatriya v. Sangammer Akola Taluka, Bidi Kamgar Union*, A.I.R. (1963) S.C. 806].

The Minimum Wages Act was passed in 1948 enabling the Central and State Governments to fix minimum rates of wages payable to employees in a selected number of 'sweated' industries.

The Act applies to the whole of India.

Wages [Sec. 2 (h)].

'Wages' means all remuneration, capable of being expressed in terms of money, which would, if the terms of the contract of employment, express or implied, were fulfilled, be payable to a person employed in respect of his employment or work done in such employment. It includes house rent allowance but does not include—

- (i) The value of—
 - (a) Any house accommodation, supply of light, water, medical attendance, or
 - (b) Any other amenity or any service excluded by general or special order of the appropriate Government;
- (ii) Any contribution paid by the employer to any Pension Fund or Provident Fund or under any scheme of social insurance;
- (iii) Any travelling allowance or the value of any travelling concession;
- (iv) Any sum paid to the person employed to defray special expenses entailed on him by the nature of his employment; or
- (v) Any gratuity payable on discharge.

Fixing of minimum rates of wages (Sec. 3)

The responsibility for fixing the minimum rates of wages is that of the appropriate Government. Sec. 3 provides that the appropriate Government—

- (a) shall fix the minimum rates of wages payable to employees employed in an employment specified in Part I or part II of the Schedule (reproduced earlier) and in an employment added to either Part by notification in the Official *Gazette* [Sec. 3 (1) (a)];
- (b) may, in respect of employees employed in an employment specified in Part II of the Schedule, instead of fixing minimum rates of wages for the whole State, fix such rates for a part of the State or for any specified class or classes of such employment in the whole State or part thereof [Proviso to Sec. 3 (1) (a)];
- (c) shall review at such intervals not exceeding 5 years, the minimum rates of wages so fixed and revise the minimum rates if necessary [Sec. 3 (1) (b)].

Minimum number of employees.

- The appropriate Government may refrain from fixing minimum rates of wages in respect of any scheduled employment in which there are in the whole State less than 1,000 employees engaged in such employment.
- But if at any time, the appropriate Government comes to a finding after an inquiry that the number of employees in any scheduled employment has risen to 1,000 or more, it shall fix minimum rates of wages payable as soon as may be after such finding [Sec. 3 (1-A)].

Minimum rates. The appropriate Government may fix—

- (a) a minimum rate of wages for time work (referred to as ‘a minimum time rate’);
- (b) a minimum rate of wages for piece work (referred to as ‘a minimum piece rate’);
- (c) a minimum rate of remuneration to apply in the case of such employees employed on piece work for purpose of securing to such employees a minimum rate of wages on a time work basis (referred to as ‘a guaranteed time rate’);
- (d) a minimum rate (whether a time rate or a piece rate) to apply in substitution for the minimum rate which would otherwise be applicable, in respect of overtime work done by employees (referred to as ‘overtime rate’) [Sec. 3 (2)].

Advisory Board (Sec. 7)

For the purpose of coordinating the work of committees and sub-committees appointed under Sec. 5 and advising the appropriate Government generally in the matter of fixing and revising minimum rates of wages, the appropriate Government shall appoint an Advisory Board (Sec. 7).

No procedure is prescribed in the Act for the Advisory Board to function. It can devise its own procedure [*State of Rajasthan v. Hari Ram Nathwani*, A.I.R. (1976) S.C. 277].

Composition of Committees and Advisory Board (Sec. 9).

Each of the committees, sub-committees and the Advisory Board shall consist of persons to be nominated by the appropriate Government representing employers and employees in the scheduled employments, who shall be equal in number, and independent persons not exceeding 1/3rd of its total number of members. One of the independent persons shall be appointed the Chairman by the appropriate Government.

Wages in kind (Sec. 11)

- Minimum wages payable under the Act shall be paid in cash [Sec. 11 (1)]. But where it has been the custom to pay wages wholly or partly in kind, the appropriate Government may, by notification in the *Official Gazette*, authorise the payment of minimum wages either wholly or partly in kind [Sec. 11 (2)].
- The appropriate Government may also by notification in the *Official Gazette* authorise the provision of the supply of essential commodities at concessional rates [Sec. 11 (3)].
- The cash value of wages in kind [under Sec. 11 (2)] and of concession in respect of supplies of essential commodities at concessional rates authorised under Sec. 11 (2) and (3) shall be estimated in the prescribed manner [Sec. 11 (4)].

Payment of minimum rate of wages (Sec. 12)

- Where in respect of any scheduled employment minimum wages have been fixed, the employer shall pay to every employee wages at a rate not less than the minimum rate of wages fixed for that class of employees in the employment.
- Such wages shall be paid without any deductions except as may be authorised. Where the contract rate of wages is higher, the statutory obligation does not come into play [Sec. 12 (1)].

Sec. 12 does not affect the provisions of the Payment of Wages Act, 1936 [Sec. 12 (2)].

Fixing hours for a normal working day, etc. (Sec. 13)

In regard to any scheduled employment where minimum rates of wages have been fixed, the appropriate Government may—

- (a) fix the number of hours of work which constitute a normal working day, inclusive of one or more specified intervals;

- (b) provide for a day of rest in every period of 7 days and for payment of remuneration in respect of such day of rest;
- (c) provide for payment for work on a day of rest at a rate not less than the overtime rate [Sec. 13 (1)].

Provisions of Sec. 13 (1) to apply subject to conditions.

In relation to the following classes of employees, the provisions of Sec. 13 (1) shall apply only to such extent and subject to such conditions as may be prescribed;

- (a) employees engaged on urgent work, or in any emergency which could not have been foreseen or prevented;
- (b) employees engaged in work in the nature of preparatory or complementary work which must necessarily be carried on outside the limits laid down for the general working in the employment concerned;
- (c) employees whose employment is essentially intermittent;
- (d) employees engaged in any work which for technical reasons has to be completed before the duty is over;
- (e) employees engaged in work which could not be carried on except at times dependent on the irregular action of natural forces [Sec. 13 (2)].

Intermittent employment.

The employment of an employee is essentially intermittent when it is declared to be so by the appropriate Government. The appropriate Government declares an employment **as intermittent on the ground that the daily** hours of duty of the employee normally include periods of inaction during which the employee may be on duty but is not called upon to display either physical activity or sustained attention [Sec. 13. (3)].

Rates of overtime (Sec. 14)

Where an employee, whose minimum rate of wages is fixed under this Act, by the hour, by the day or by such longer wage-period as may be prescribed, works overtime, the employer shall pay him for every hour or for part of an hour so worked in excess, wages at the rates fixed for overtime work under the Act or under any law of the appropriate Government in force, whichever is higher [Sec. 14 (1)].

The provisions of the minimum Wages Act, 1948 do not prejudice the operation of the provisions of Sec. 59 of the Factories Act, 1948 in any case where those provisions are applicable [sec .14 (2)].

Wages of worker who works for less than normal working day (Sec. 15)

Sometimes an employee whose minimum rate of wages has been fixed by the day may work on any day on which he was employed for as period less than the requisite number of hours constituting a normal working day. In that case he is entitled to receive wages in respect of work done by him on that day as if he had worked for a full normal working day except—

- (1) where his failure to work is cause by his unwillingness to work and not by omission of the employer to provide him with work, and
- (2) in such other cases and circumstances as may be prescribed.

Wages for two or more classes of work (Sec.16)

Where an employee does two or more classes of work to each of which a different minimum rate of wages is applicable, the employer shall pay to such employee in respect of the time respectively occupied in each such class of work, wages at not less than the minimum rate in force in respect of each such class.

Minimum time rate wages for piece work (Sec.17)

Where an employee is employed on piece work for which minimum time rate and not a minimum piece rate has been fixed under the Act, the employer shall pay to such employee wages at not less than the minimum time rate.

Maintenance of registers and records (Sec. 18)

- Every employer shall maintain registers and records giving particulars of employees employed by him, the work performed by them and such other particulars and in such form as may be prescribed [Sec. 18 (1)].
- He shall also keep exhibited notices in the prescribed form containing prescribed particulars in the prescribed manner in the factory, workshop or place where the employees in the schedule employment may be employed.
- In the case of out-workers, he shall keep these notices exhibited in such factory, workshop or place as may be used for giving out-work to them [sec. 18. (2)].
- The appropriate Government may, by rules made under the Act, provide for the issue of wages books or wage slips to employees employed in any scheduled employment in respect of which minimum rates of wages have been fixed.
- It may also prescribe the manner in which entries shall be made and authenticated in such wage books or wage slips by the employer or his agent [sec. 18 (3)].

IMPORTANT DEFINITIONS [SECTION 2]

Complainant [Sec. 2(1) (b)]

Complainant means –

- (a) a consumer
- (b) any voluntary consumer association registered under any law;
- (c) the Central or any State Government
- (d) one or more consumers, where there are numerous consumers having the same interest; or
- (e) in case of death of a consumer, his legal heir or representative,

Who or which makes a complaint.

An association of persons to have locus standi as consumer, it is necessary that all the individuals forming the association must be the consumer having purchased the same goods or hired the same services from the party.

In case the affected consumer is unable to file the complaint due to ignorance, illiteracy or poverty, any recognized consumer association may file the complaint as per the above clause (b). Thus, rule of 'privity of contract' or 'locus standi', which permits only the aggrieved party to take action, has very rightly been set aside in the spirit of public interest.

Complaint [Sec.2(1)(c)]

Complaint means any allegation in writing made by a complaint that –

- (i) an unfair trade practice or a restrictive trade practice has been adopted by any trader;
- (ii) the goods bought by him or agreed to be bought by him be suffer from one more defects;
- (iii) the services hired or availed of or agreed to be hired or availed of by him suffer from deficiency in any respect;
- (iv) the trader has charged a price in excess of the price; (a) fixed under any law; (b) displayed on the goods or any package containing such goods; (c) displayed on the price list exhibited by him; or (d) agreed between the parties.
- (v) goods which will be hazardous to life and property when used are being offered for sale to the public;
- (vi) services which will be hazardous to life and safety of the public when used, are being offered by the service provider.

With a view to obtain any relief provided by law under this Act.

Consumer [Sec. 2(1) (d)]

Consumer means –

- (i) In respect of goods, any person who purchases goods for a consideration but does not include a person who has purchased goods for re – sale or commercial purpose. Such consideration may be paid or promised or partly paid and partly promised or under the system of deferred payments.

- (ii) Any person who is using the goods, with the permission of the buyer of such goods as specified in clause (i).
- (iii) In respect of service, any person who hires or avails service for a consideration but does not include a person who has availed service for commercial purpose. Such consideration may be paid or promised or partly paid and partly promised or under the system of deferred payment.
- (iv) Any person who is beneficiary under the services with the permission of the hirer of such services as specified in clause (iii);
- (v) A person who purchases goods or avails services exclusively for the purpose of earnings his livelihood by means of self employment.

Commercial Purpose: A person who has purchased goods for “commercial purpose” shall not be deemed to be a consumer. A purchase of goods could be said to be for a “commercial purpose” only if two conditions are satisfied, namely : (i) the goods must have been purchased for being used in some profit – making activity on a large scale; and (ii) there should be close and direct nexus between the purchase of goods and the profit – making activity.

Thus, a person who buys goods for re – sale or commercial purposes or avails services for commercial purposes is specifically excluded from the definition of ‘consumer’. For example, a person buying one truck or tempo or sewing machine or one computer for the purpose of earning his livelihood by self – employment will be eligible to qualify as consumer. However, if a person buys two typewrites, out of which one is used by a person employed by him, he will not be eligible to file a complaint as a consumer because a person buying goods for re – sale or commercial purpose is not a consumer.

For instance, a lawyer purchased a computer and a printer for his office. The printer started giving trouble from the day one. The lawyer lodges a complaint under the Consumer Protection Act. In this case, the printer has not been purchased by the advocate for any commercial purpose treated as consumer and will succeed in his complaint.

[Sanjay Krishana Kant v. M/s Grooy Communication & Others]

Who is a Consumer : Following are some of the important decided cases in this regard:

1. Railway passengers traveling on payment of fare is consumer. [GM, South Eastern Railways v. Anand Prasad Sinha]
2. Beneficiary of bank guarantee is a consumer. [Union Bank v. Seppo Rally]
3. Parents who bring the child to hospital and the child both are consumers. [Spring Meadows Hospital v. Harjot Ahluwalia]
4. Allottees of house by Housing Board are consumers [UP Avas Gram Vikas Parishad v. Garima Shukla]
5. A person obtaining water from a government agency and paying water bills for the water supplied is a consumer. However, only if the water tax is levied, the person availing services will not be a consumer. [Nagrik Parishad v. Garhwal Jal Sansthan]
6. The widow of a deceased policy holder is a consumer, as the term ‘consumer’ includes any beneficiary of service other than the person who hires the services for consideration. [A Narsamma v. LIC of India]

Who is not a Consumer: following are some of the important decided cases in this regard.

1. A charitable trust is not a consumer if it has purchased machinery for its diagnostic centre, when only 10% patients are provided free services and charges are levied on remaining patients Charitable Trust v. Toshniwal Brothers]
2. Person buying goods for manufacture of another product is not consumer as the goods were intended for commercial purpose. [Rajeev Metal Works' v. MMTC]
3. A tenant is not consumer when landlord has not agreed to render any service to tenant in lease agreement. [Laxmiben Laxmichand Shah v. Sakerben Kanji]
4. A hospital will not be liable, if the hospital happens to be a government hospital where no fee is charged for consultation and treatment, but only a token registration fee is charged. [Indian Medical Assoc. v. V.P. Shanta & others]

Goods [Sec. 2(1) (i)]

Goods means goods as defined in the sale of goods Act, 1930.

As per Sale of Goods Act, goods means every kind of moveable property other than actionable claims and money; and includes stock and shares, growing crops, grass or things attached to or forming part of the land which are agreed to be severed before sale or under the contract of sale.

Therefore, most common products would come within the purview of this definition.

Shares have been specifically included in 'goods'. However, shares before allotment are not goods, as they do not exist before the allotment is made. To constitute a consumer, there must be transaction of goods. Hence, a prospective investor cannot be regarded as a consumer within the meaning of this Act, [Morgan Stanley Mutual Fund v. Kartik Das]

Services [Sec. 2(1) (o)]

Service means services of any description which is made available to potential users and includes, but not limited to the provision of facilities in connection with banking financing, insurance, transport, processing supply of electrical or other energy, board or lodging or both, housing construction entertainment amusement or the purveying of news or other information, but does not include the rendering of any service free of charge or under a contract of personal services.

“Potential Users’ mean those who are capable of using the service. [Lucknow Development Authority v. M.K. Gupta]

Contract of Personal Service and Contract for Personal Service: In contract of personal service, the master can order or require what is to be done and how it is to be done. This is out of the purview of COPRA as the master can always dispense with the service of the servant and hence no occasion would arise for him to complain about service of the servant. However, in contract

for personal services, the person cannot order what is to be done and how it is to be done. Services rendered in professional category could be treated as contract for personal service and hence covered under COPRA.

Consumer Forum cannot decide disputes arising out of contract of appointment of personal service. For instance, Civil Servants and Professors in Universities are appointed under contract of personal service and hence are not covered under COPRA. [Centre for Research & Industrial Development v. Madam Lal Sahni]

What is Service: Following are some of the important decided cases in this regard:

1. Passengers traveling by trains on payment of the stipulated fare charged for the ticket are consumer' and the facility of transportation by rail provided by the railway administration is a 'service' rendered for consideration as defined in the Act. [GM, South Eastern Railways v. Anand Prasad Sinha]
2. Similarly telephone services availed for consideration is a service. [District Manager, Telephones Patna v. Lalit Kr. Bajila]
3. Service rendered to a patient by a medical practitioner (except where the doctor renders service free of charge to every patient) by way of consultation, diagnosis and treatment, both medical and surgical, would fall within the ambit of 'service'. [Indian Medical Association v. V.P. Shanta & Others]
4. Accepting deposits from public agreeing to pay interest is service. If interest and principal is not paid on due dates, it is deficiency of service and consumer forums can issue orders for payment of outstanding dues. [Kalawati v. United Vaish]
5. Education is an activity which comes within the ambit of 'service' because 'service' means service of any description which is made available to potential users under this Act. [The CBSE v. Consumer Disputes Redressal Forum]

What is not service: following are some of the important decided cases in this regard:

- 1) Conducting examination is not service as a candidate appearing for examination could not be regarded as a person who has hired or availed the services of the University or Board for consideration. Thus, the University or Board in conducting examination is not performing any service. [Chairman, Board of Examination v. Mohideen Abdul Kader]
2. Registration of documents by government is not a service. A person presenting a document for registration is not a consumer. There is no commercialization involved. Officers who are doing the work of registration are doing the statutory duty. [S.P. v. collector of Stamps]
3. Payment of taxes is not hiring of services. No complaint can be lodged against Municipal Corporation for failure to carry out its statutory duty of proper maintenance of drains, as payment of taxes is not hiring of services. [Signet corporation v. Commissioner, MCD, New Delhi]
4. Promotional activities of state and its agencies are not services and complainants are not consumers, as facilities are provided by State and its agencies without any specific

consideration. [T.N. Sethuraman v. Goa, Daman and Diu Industrial Development corporation]

5. Even if a litigant pays court fees, he is not hiring services of Court. The Court is exercising sovereign function of dispensation of justice. Thus, complaint against Court for delay in judgment is not maintainable under Consumer Forums.
6. Free Services are not covered under COPRA. The employer (Govt. in this case) deducted insurance premium from salary of employee, but failed to make payment to LIC. When the employee died LIC refused to pay as premium was not paid. It was held that the employer was giving free service and hence he is not liable. [State of Orissa v. LIC]
7. However, if the employer is agent of LIC for the purpose of collecting premium, then general principle of agency as contained in Contract Act shall apply. Employee has no responsibility to intimate LIC about non – remittance of the premium. Hence, LIC has to make payment of compensation if employer has deducted premium from salary of employee. [Delhi Electric Supply v. Basanti Devi]

Consumer Dispute [Sec. 2(1) (e)]

Consumer dispute means dispute where the person against whom a complaint has been made, denies in goods or against any deficiency in services or against charging an exorbitant price.

Defect [Sec. 2(1) (f)]

Defect means any fault, imperfection or shortcoming in the quality, quantity, potency, purity or standard of any goods which is required to be maintained by or under any law for the time being in force or under any contract, express or implied, or as is claimed by the trader in any manner whatsoever in relation to any goods.

In the case of *Abhaya Kumar Panda v. Bajaj Auto Ltd.* where the motor vehicle sold to the petitioner was found to have major manufacturing defects which could not be removed despite several repairs, it was held to be ‘defective’ and the vehicle was ordered to be replaced.

Deficiency [sec. 2(1) (g)]

Deficiency means any fault, imperfection, shortcoming or inadequacy in the quality nature and manner of performance of any service which is required to be maintained by or under any law for the time being in force or has been undertaken to be performed by a person in pursuance of a contract or otherwise in relation to any service.

In order to get any loss compensated for deficiency in service, mere loss or injury is not enough. Loss or injury must be coupled with negligence. The term ‘negligence’ means absence of reasonable care which a prudent person is expected to observe in a given set of circumstances. Thus, no compensation can be claimed even in case of loss or damage. If it was not caused due to negligence of the person. [*Consumer Unity and Trust Society v. Bank of Boroda*]

For instance, the driver of a bus suddenly, applied the brake to avoid a collision with bullock cart and with result the bus met with an accident resulting in the death of a passenger. The legal heirs of the deceased lodged a complaint with Consumer Forum for compensation on the ground of ‘deficiency in service.’ In the present case, the accident that occurred had nothing to do with provided to the deceased because the injury sustained has nothing to do with the service

provided but due to the direct result of the accident, Further, there was no element of negligence on the part of driver, as he had applied the brakes to avoid a collision. Hence, the heirs of the deceased will not succeed in their complaint against the transport company.

[Chairman, Thiruvallavar Transport Corporation v. Consumer Protection Council]

It may be noted that COPRA does not have any jurisdiction in respect of any matter, if there is some special law dealing with that matter.

What is Deficiency in Service: Following are some of the important decided cases in this regard:

1. Negligence in settlement of Insurance claim, [Div. Manager, LIC of India v. Bhavanam Srinivas Reddy]
2. Ornaments kept in the banks' locker were found lost though the certificate recorded by the custodian of the bank stated all lockers operated during the day had been checked and found properly locked. [Punjab National Bank v. K. B. Shetty]

9. Theft of car from parking of an hotel constitution the deficiency in service. [Atul Virmani. V. Asian Hotels Limited]

13. In the case of goods carrier services, the liability of a carrier to whom the goods are entrusted for carriage is that of an insurer and is absolute in terms. So long as the goods are in the custody of the carrier, it is the duty of carrier to take due care as he would have taken of his own goods and he would be liable if any loss or damage was caused to the goods on account of his negligence³ or criminal act or that of his agent and servants. This would be so even if goods are carried 'AT OWNER'S RISK -----'. Owners' risk is understood in the sense that the carrier would not be liable for damage or loss to the

goods if it was not caused on account of carrier's own negligence or the negligence of his servants and agents. [Nath Brothers v. Best Roadways Ltd.]

14. The transportation of goods through carriers cannot be considered as for commercial purposes and the transporter is liable for any deficiency in service. [Express Goods Service v. Standard Textile Mills]
15. Selling an item at double the price printed on the wrapper is an Unfair Trade Practice. [Kapil Mitra v. Priya Village Roadshow, New Delhi]

What is not Deficiency in Service : Following are some of the important decided cases in this regard:

1. Refusal to give credit to customers on grounds that the unit belonged to a sick Industry or was not economically viable on any other grounds would not fall under deficiency of service as a bank is the sole judge of the credit worthiness of any party. [Asha Sharma v. Union of India]
2. Failure to deliver goods carried by the railways is not covered clause 'deficiency in service rendered' of Consumer Protection Act, But it is covered under Railway claims tribunal Act. 1987 and thus required to be compensated in that Act. [Union of India v. M. Adaikalan]
3. The National Commission held that where the bank has not been accommodating the complainant sufficiency in the matter of grant of adequate nursing facility for small scale industry which consequently became sick, the proper forum to agitate the said grievance is civil court and not a consumer redressal forum. It further held that the banks have to exercise their discretion and act in accordance with their best judgment after taking into account various relevant factors and hence mere failure to provide financial facility cannot be said to constitute deficiency in service. [Special Machines v. Punjab National Bank]
4. A person or organization engaged in the business of courier services for carriage of mail or parcels falls within the purview of the COPRA, 1986 and delay in delivery of articles or non – delivery will constitute deficiency in service. However the National Commission held that the complainant ought to have insured the documents if they were of great value and as per IATA Regulations, the consignee is bound to declare the nature of the contents and hence did not grant any relief to the complainant. [Air Pack couriers (India) Pvt. Ltd. v. S. Suresh]
5. If the staff gives some information (or leaflet containing some information) which is against the provisions of Statute, the Authority is not liable for deficiency in service. In this case, the postal staff gave incorrect information about rate of interest and maturity period of National Saving Certificate. The Supreme Court held that since the terms are specified by notification of Govt. of India, any information contrary to the notification is not binding on Govt. of India. [Post Master v. Ms. Raja Premeelamma]
6. Disconnection of electric supply for non – payment of charges by consumer is not deficiency in service. Electricity Board has power to discontinue supply. It was also held that electricity board can make supplementary bill for escaped bill. [Swanstic Industries. v. Maharashtra State Electricity Board]

7. Disconnecting power supply for tampering with electric meter is not deficiency in service.[CESC Limited v. Sumitra Pal]
8. In Airline services, delay due to bad weather and poor visibility are unforeseen circumstances and hence there is no deficiency in service. Compensation can be awarded only if there is negligence and loss is suffered by complainant on account of negligence. [Indian Airlines Limited v. Dr. V. J. Philip]

There must be express promise to pay.
Mere acknowledgement of indebtedness is not sufficient.
 - “I acknowledge myself to be indebted to B in Rs.5,000, to be paid on demand, for value received”. The promise to pay is definite and therefore this is a valid promissory note.

- “Mr. B.I.O.U Rs.1,000.” There is no promise to pay and therefore this is not a valid promissory note.
- **Definite and unconditional promise**
If a promise to pay is dependent upon an event which is certain to happen, although the time of its happening is uncertain, the promise to pay is unconditional.

A promissory note must be signed by the maker.
The signatures may be made on any part of the instrument.
- **Promise to pay a certain sum**
 - “I promise to pay B Rs.500 and all other sums which shall be due to him.” Since the amount payable is not certain, it is not a valid promissory note.
 - “I promise to pay B Rs.500 first deducting there from any money which he owes me.” Since the amount payable is not certain, it is not a valid promissory note.
- **Promise to pay money only**

The name of payee must be specified in the promissory note, otherwise it will be invalid.
- **Stamped**
A promissory note must be stamped.

12. NEGOTIATION – MEANING AND METHODS (Sec.14)

➤ **Meaning of negotiation**

Negotiation means transfer of a negotiable instrument to any other person so as to constitute that person the holder of such negotiable instrument.

➤ **Methods of negotiation**

Negotiation by delivery

- A bearer instrument may be negotiated by delivery.
- The delivery must be voluntary

Negotiation by endorsement and delivery

An order instrument can be negotiated only by way of -

- (i) endorsement; and
- (ii) delivery.

13. MEANING OF ENDORSEMENT (Sec. 15)

Endorsement means

Signing

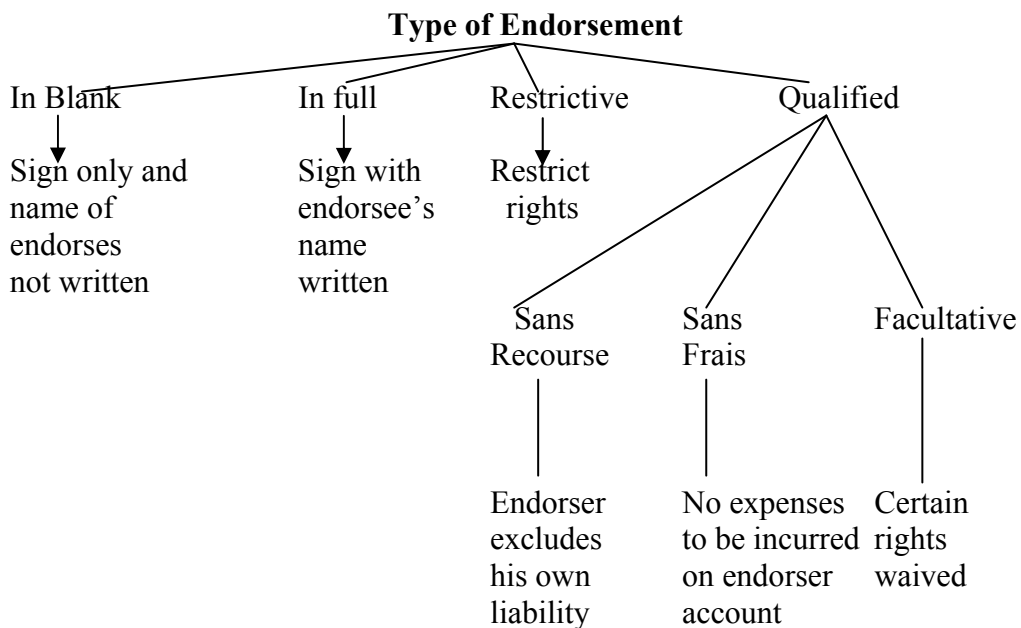

- on the face or back of negotiable instrument; or
- on a slip of paper annexed to the negotiable instrument

By

- the holder of negotiable instrument

For the purpose of

- negotiating such negotiable instrument .

14. ESSENTIAL REQUIREMENTS OF A VALID ENDORSEMENT (Sec.15 and 16)**Writing**

The endorsement must be in writing

Signed

The endorsement shall not be valid unless it is signed.

By holder

The endorsement shall be valid only if the negotiable instrument is signed by the holder.

15. KINDS OF ENDORSEMENTS (Sec.16, 50, 52, 56)➤ **General endorsement i.e. endorsement in blank****Meaning**

- General endorsement means, an endorsement made by the endorser without writing the name of the endorsee.

(b) **Facultative** – Endorser waives any of his rights.

(c) **Contingent** - Endorser makes his liability dependent upon the happening of an event.

- the endorser again becomes the holder of such negotiable instrument

Then –

- it is called as negotiation back.

➤ **Effect**

- The holder cannot enforce payment against an intermediate party to whom he was previously liable.
- The holder can enforce payment against all the parties to whom he was not previously liable.
- However, the holder can sue all the prior parties (including all intermediate parties to whom he was previously liable), if he had made sans recourse endorsement.

17. DISTINCTION BETWEEN NEGOTIATION AND ASSIGNMENT

Basis	Negotiation	Assignment
1. Applicable Act	If a negotiable instrument is transferred by way of negotiation, Negotiable Instrument Act, 1881, applies.	Where any right is transferred by way of assignment, the Transfer of Property Act applies.
2. Meaning	Negotiation means transfer of a negotiable instrument to any other person so as to constitute that person the holder of such negotiable instrument.	Transfer of a right to receive the payment of a debt by one person (viz, assignor) to another document is called as assignment.
3. Scope	Negotiation can be made for transferring negotiable instruments only.	Assignment can be made of any right.
4. Method or manner	A bearer instrument can be negotiated merely by delivery, and an order instrument can be negotiated by endorsement and delivery.	Assignment is valid only if it is made in writing and is signed by the assignor.
5. Notice	Notice of negotiation is not required to be given to any party.	Notice of assignment must be given by the assignee to the debtor.
6. consideration	It is presumed that every negotiable instrument was negotiated for consideration.	There is no such presumption in case of assignment.
7. Burden of proof	The other party has to prove that negotiation was without any consideration.	The assignee has to prove that there was some consideration.
8. Better title	The transferee of a negotiable instrument acquires a title better than that of the transfer, i.e., he becomes a holder in due course.	The assignee does not acquire a title better than that of the assignor.
9. Stamp duty	Negotiation does not require payment of stamp duty.	Assignment requires payment of stamp duty.

18. MEANING AND PURPOSE OF CROSSING

➤ **Meaning of crossing**

Crossing means a direction given by the drawer of the cheque to the drawee bank, not to pay the cheque at the counter of the bank, but to pay it to a person who presents it through a banker.

➤ **Purpose of crossing**

Crossing makes it possible to trace the person to whom the payment has been made. Thus, it makes the cheque safe.

19. TYPES OF CROSSING (Sec. 123 to 131A)

➤ **General Crossing ; Sec.123**

Where a cheque bears across its face an addition of –

- The words ‘and company’ or any abbreviations thereof between two parallel transverse lines, or
- Two parallel transverse lines simply.

Pay..... Rupees..... XYZ Bank XXXXor bearer <div style="border: 1px solid black; width: 100px; height: 20px; margin: 0 auto;"></div> XXXX
---	--

Either with or without the words ‘not negotiable’, the addition shall be deemed a crossing, and the cheque shall be deemed to be crossed generally.

Where a cheque is crossed generally, the banker on whom it is drawn shall not pay it otherwise than to a banker.

➤ **Special Crossing : Sec.124.**

Where a cheque bears across its face an addition of the name of a banker, either with or without the words ‘not negotiable’, that addition shall be deemed a crossing and the cheque shall be deemed to be crossed specially.

Pay..... Rupees..... XYZ Bank XXXXor bearer XXXX
---	---

Two parallel transverse lines are not a must. Where a cheque is crossed specially, the banker on whom it is crossed shall not pay it, otherwise than to the banker to whom it is crossed or his agent for collection.

Difference:

In general crossing the Name of the Bank is not mentioned whereas in special crossing the Name of the Bank is mentioned.

'Not Negotiable' Crossing : Sec.130.

The object of "Not negotiable" crossing is to protect the rights of holder of a cheque.

A person taking a cheque crossed generally or specially, bearing in either cases the words 'not negotiable', shall not have, and shall not be capable of giving a better title to the cheque other than that which the person from whom he took it had.

Ordinarily a person acquiring a cheque in good faith becomes its holder in due course just as in the case of an open document. Such a cheque can be negotiated further.

However, where a cheque is crossed as 'Not Negotiable', either generally or specially, the Holder in due course will not get a better title than the person from whom the received. It maybe noted that though it is mentioned 'Not Negotiable', the cheque can be transferred. The only restriction is with regard to the title passed.

In other words, the principle of *nemo dat quod non habet* (nobody can pass on a title better than what he himself has) will be applicable to a cheque with a 'not negotiable' crossing, even though the cheque is in the hands of a holder in due course.

➤ **'Account Payee' Crossing / Restrictive Crossing**

The purpose of this crossing bearing the words "A/c Payee" is to obviate the risk of a wrong person obtaining payment on a cheque.

It is a direction to banker to credit the proceeds only to the account of the payee.

The cheque remains legally negotiable but "A/c payee" crossing hinders the negotiability of the cheque in practice.

20. BOUNCING OR DISHONOUR OF CHEQUES (Sec.31 and 138)

➤ **Liability of drawee on dishonour Conditions (Sec.31)**

- the drawer has sufficient funds in the account; and

- In case of default by drawee (i.e. Banker), the drawee shall compensate the drawer for loss caused to him.

➤ **Liability of drawer on dishonour (Sec.138)**

Nature of liability

- Imprisonment – 2 years (Maximum); or
- Fine – 2 times the amount of cheque (Maximum); or
- Both

- ❖ No Prior party can allege that negotiable instrument was delivered conditionally or for a special purpose only (Sec.46).

Materiality depends on the size and nature of the item, judged in the particular circumstances of its misstatement.

The following are some of the specific requirements in the form of Balance Sheet based materiality consideration implicit in the very process of prescribing the format in Part I of schedule VI.

Inherent Risk (I.R)	Control Risk (CR)	Detection Risk (D.R.)
Risk that Material Misstatement may occur	Risk that I.C. fail to operate as desired.	Risk that auditor’s substantive procedures will not detect a material Misstatement
Arises at level of management	Arises at level of management	Arises at auditor’s level.
Auditor can only assess this risk	Auditor can only assess this risk.	Auditor can frame this risk.
Risk of system of management	Risk of I.C. system of management	Risk of substantive procedure adopted by auditor.
This is generally high, However certain factors may be present due to which it can be less than high.	This is evaluated in stages (See chart below)	DR should be inversely proportionate to combined assessment of I R & C R $DR \propto 1/(IR + CR)$ If IR & CR are high, DR should be kept at low level.

- **Internal Risk** – Risk that material error will remain.
- **Control Risk** – Risk that client’s internal control system cannot prevent or make up for such error.

- **Detection Risk** – Risk that material errors though they are there will not be detected.

- (i) **Relevance:** Only working papers which are materials for the purpose of audit are to be preserved. Irrelevant working papers should not be kept.

- (iii) **Arrangement of working papers:** Working papers should be arranged according to the need and priority of audit work. Besides that audit staff should mention the date on which it was prepared. He should also sign on the face of the working paper.
- (iv) **Changeability:** Working papers should not be rigid. This should be prepared according to the need of the audit work and changes are to be made if required.
- (v) **Safe custody:** Working papers should be kept secret and protected in such a way that no one can access these without authorization.
- (vi) **Correctness in presentation:** The working papers should contain such information's which is correct and not misleading. Goods presentation of information should not create any problems at the time of using of working papers.

OWNERSHIP OF WORKING PAPER:

There is great controversy regarding the perspective or ownership of working papers i.e. who is the owner of the working papers. Both the auditor and his client demand these working papers to be kept with them. The logic of the owner is that the auditor has prepared audit working papers on behalf of the company in the capacity of agent. Moreover, the auditor contracted with the third parties of the company has collected information which has been recorded in the audit

working papers. For these, audit working papers are the assets of the company and they can retain it.

On the other hand, the logic behind the preservation of working papers by the auditor is that he is doing audit work on behalf of the Company but he prepares working papers for his benefits of work. Besides these, he should keep these working papers for any charges made against him by the company for negligence of duty or for misfeasance. Therefore, he is the real owner of the audit working papers.

Case Laws:

- (i) **Stockinsky vs. Bright Graham & Company (1938):** In this case it was held that working papers are the property of the auditor even after the payment of his audit fees. The judgment of the court was in favour of the auditors on the ground that during the performance of his duties, he acts as an independent contractor and not as an agent of his client.
- (ii) **Chantry Martion & Company vs. Martin:** In this case, it was held that working papers for the purpose of producing Balance Sheet are the property of the auditor and the correspondence made between the auditor and the income tax department relating to tax liability of the client is the property of client.

Therefore, it can be concluded that the auditor is the owner of the working papers prepared by him so far as it relates to the examination of books of accounts.

London Oil Storage Company Ltd. vs. Seear Hasluck and Company (1904): In this case the auditor was negligent to verify the existence of cash in hand. The auditor was liable for breach of duty for not taking proper steps to verify the existence of assets shown in the balance sheet.

Arthur E. Green & company vs. The Central Advance And Discount Corporation Ltd. (1920): In this case the auditor was guilty for negligence for not considering huge amount of bad debt which remains unpaid for a long time and the company was not made sufficient provision for bad debt. As a result, profit was inflated and dividend was paid on the basis of this profit.

The Kingston Cotton Mill Company Ltd. (1896).

EDP AUDIT OR AUDITING FOR COMPUTERIZED ACCOUNTING:

ITS FEATURES AND ADVANTAGES:

EDP audit or auditing for computerized accounting: EDP audit. is a process of collection where evidences are collected and evaluated to assure that the system properly safeguards assets, maintains data integrity, reliability and efficiency of the information system, uses resources of the organization in an efficient manner and gives a sound reporting structure.

Features/Principles/objectives/advantages benefits of EDP audit: The following are the advantages or principles of EDP audit:

- (i) EDP audit evaluates that proper and sufficient data control, data integrating and efficiency of the information system.
- (ii) It properly safeguards the assets and uses and also includes hardware, software, system documentation, data files etc.
- (iii) This system of audit ensures the utilization of resources in an efficient manner and within the minimum costs.
- (iv) Under this audit, proper administration and procedural controls are created and implemented.
- (v) It ensures that data processing of different application system are accurate.
- (vi) It ensures that there is a proper system of reporting structure.
- (vii) Under this system of audit, rules, regulations and statutory laws are maintained and ensure compliance of statutory rules.
- (viii) It reviews the system of scope of the organization data processing method and the system efficiency and effectiveness and also asses the fulfillment of need of the users.
- (ix) By maintaining managerial control over the data processing system, it reduces the chances of errors and frauds.
- (x) Through the help of EDP audit, areas can be detected where more work is to be performed. Security programme and overall control for the risk associated with the information system can be found out.

LIMITATIONS OF EDP OR COMPUTERIZED ACCOUNTING:

Though EDP audit has many advantages to the auditor, it is not free of limitations. The difficulties which arise during EDP audit are discussed below:

- (i) Problems to get supporting vouchers: In case of manual auditing system every transaction has a supporting voucher and with proper authorization. But in case of computerized accounting many transactions are directly put in to the computer without the record of authorization e.g. purchase invoice, sales invoice, discount allowed etc. This creates a problem to the auditor regarding authenticity of transactions because of non-existence of input documents. Output reports may not give supporting details e.g. printed reports which may contain only transactions details and total.
- (ii) Easy way to fraud and manipulation of data: Accounting through computer system may give chances of huge fraud and manipulation of data's in different ways. If there is easy access and lack of security, frauds may leads to loss of substantial

- amount.
- (iii) Deficiency of visible audit trail: In conventional accounting there is a system of in depth checking and verification of transactions from the beginning to the end through a series of process and it is possible to get necessary documents and supporting vouchers. But in a computerized accounting system, there is' no series of process followed for recording of transactions as input. Therefore, there is a lack of audit trail and as a result there is a huge chance of manipulation.
 - (iv) Problem of codification: In conventional accounting system transactions are classified according to the different accounting heads. But in computerized accounting different codes are used for the transactions which creates problem for the auditor except expertise in this field.
 - (v) Effect of computer virus: This is a serious problem for computerized accounting. This is a preplanned programme applied to destroy the area of different accounting data, for the purpose of the employee's personal gain. The auditor has to be very cautious regarding computer virus while auditing through computer.

MAJOR AREAS ON INTERNAL CONTROL SYSTEM IN AN EDP ENVIRONMENT:

The main objective of EDP audit is to proper data control, data integrity, system efficiency and safeguarding of assets. But the objective of EDP audit would fail to get result if there is not a sound internal control system in the organization. The major areas of internal control system are discussed below:

A big organization having a sound internal control system covers the following major areas:

- (i) Total system of control: Internal control system is a whole system of control financial and otherwise.
- (ii) Integrate other subsystem: To execute the proper functioning of internal control, internal check and internal audit are implemented.
- (iii) Control all aspects: Internal control system is such a control which exercises control over assets, . liabilities, revenue and expenses.
- (iv) Control also non-financial activities: Internal control exercises not only internal check and internal audit but also perform non-financial activities for smooth running of business.

COMPUTER INFORMATION SYSTEM AND INTERNAL CONTROL:

Internal control is the total control of an organization financial and otherwise to safeguard business assets, prevention and detection of errors and frauds, increase the efficiency of the management and good system of accounting records and includes internal check and internal audit."

Some of the important internal control system for computer information system is:

- (i) Creation of Password: There should be a system of password for authentication of the person for processing the task. In other words, data fed into the system and processing done by the computer is authorized.
- (ii) Process of Edit Test: Financial Control and Edit Control test help in accurate data entry and the accurate processing of computer information system.
- (iii) File Libraries: This is a system which can be used as an internal control technique to protect the computer information system from destruction anti corruption.

- (iv) Audit Trails: This system helps to preserve all those records within the system from which financial statement can be obtained.
- (v) Batch Cancellation Stamp: This control helps repetition of processing of data and only one time processing is required.
- (vi) General Control: This control helps to implement overall control on all the activities of computer information system. The sub-system of this control is (a) Organization Control (b) System and Documentation control (c) Hardware Control (d) Procedural Control etc.
- (vii) Application Control: In addition to general control, control of application of the computer information system is also important. The sub- system of this control is (a) Input Control (b) Output Control and (c) Processing control.

CHARACTERISTICS OF AN EFFECTIVE SYSTEM OF COMPUTER AUDIT PROGRAMME

The characteristics of computer~ audit programme are:

- (i) The system must be simple enough for being use so that it can remember countless details normally required in writing or changing computer programme.
- (ii) The system of computer audit programme would be such so that it is easily understandable to all.
- (iii) It has the capacity for being used with different configuration of computers.
- (iv) The staff should be sufficiently trained and the package must-have adequate support at the time of installation. There should be enough flexibility for future revision of. the programme.
- (v) The package must have statistical sampling capability.
- (vi) The programme should frame in such a way so that it can process different types of applications.
- (vii) The system should be such that it can be easily executed by all users and can be compared with the existing system.
- (viii) The program must have function of report writing and is capable to prepare multiple reports in a single program run and also can generate output report format which is flexible as per requirement.

Steps for Auditing of Computerized Accounting:

The following steps should require before audit of computerized accounting:

- (i) Examine the fundamental features of computerized accounting. This includes:
 - (a) System and methods of keeping accounting system
 - (b) Management information system
 - (c) Documentation of input
 - (d) Procedure and system of control
 - (e) Methods of segmentation of duties.
- (ii) Evaluate the system of documentation. This includes:
 - (a) Contents of data
 - (b) Internal control system
 - (c) Coding procedure
 - (d) Formats of input
 - (e) System flow chart
 - (f) Documentation of new system software
 - (g) Access to system documentation.

- (iii) Control over inputs. This includes:
 - (a) Authorization of transactions
 - (b) Is there any missing transactions or transactions are changed or duplicated.
 - (c) Rejection of incorrect transactions.
- (iv) Designing of test procedure. This consists of:
 - (a) Choice of testing technique
 - (b) Processing of testing operations.
- (v) Audit tools through computer. This includes:
 - (a) Construction of general audit programme
 - (b) Test dect
 - (c) Recovery procedure of data and computer programme.
- (vi) Preparing audit programme.
- (vii) Compliance audit procedure
- (viii) Review of output
- (ix) Timely submission of report to the management.

“AN AUDITOR IS A WATCH DOG BUT NOT A BLOOD HOUND”.

The remark was made by Justice Lopes in a famous case law, The Kingston Cotton Mill Company Ltd (1896). The contents of the case are given below.

Facts of the case: Stock was overvalued for several years fraudulently 'O inflate profit and dividend was paid out of that profit which results in erosion of capital. The auditor took the value of stock certified by the manager and the value was agreed by the auditor without applying reasonable care and skill and entered in the balance sheet with a note "as per manager's certificate."

Judgment: In this case Justice Lopes observed, "It is the duty of an auditor to bring to bear on the work he has to perform that skill, care and caution which a reasonably competent, careful and cautious auditor would use. What is reasonable skill, care and caution must depend on the particular circumstances of each case. An auditor is not bound to be a detective, or, as was said, to approach his work with suspicion or with a foregone conclusion that there is something wrong. He is a watch-dog but not a bloodhound. He is justified in believing tried servants of the company in whom confidence is placed by the company. He is entitled to assume that they are honest, and to rely upon their representations, provided he takes reasonable care. If there is anything calculated to excite suspicion he should prove it to the bottom, but in the absence of anything of that kind, he is only bound to be reasonably cautious and careful.
